

Tripler Army Medical Center Department of Anesthesia and the Ruth Andrews Medical Simulation Center (RAMSiC) are proud to offer a one-day Anesthesiology MOCA Simulation Course, a high-fidelity simulation educational experience with a focus on crisis management in the perioperative setting. Board-certified anesthesiologists who complete this course can receive points toward Part IV of their American Board of Anesthesiology (ABA) Maintenance of Certification in Anesthesia (MOCA®) requirement. The course is open to military and DOD anesthesiologists. Tripler is only site in Hawaii to be endorsed by the American Society of Anesthesiologists (ASA).
